SWE/TBP Career Fair 2013

Monday, September 23
Tuesday, September 24
10am-4pm

**KEEP
CALM
AND
SUIT UP**

Welcome

Participants of the 2013 Society of Women Engineers and Tau Beta Pi Career Fair,

We would like to extend a warm welcome to all the corporate representatives and University of Michigan students attending the 29th Annual SWE/TBP Career Fair. We are pleased to provide this opportunity to bring companies and students together.

SWE and TBP are sponsors of several events throughout the year. These events provide students with the opportunity to network with industry representatives through presentations at meetings, banquets, Corporate Information Sessions, corporate luncheons, a Professional Development Day, as well as several other college-wide events. We hope you enjoy the Career Fair and encourage you to consider these events in the future.

Thank you for participating in this year's Career Fair!

Sincerely,

Mike Boyd

Message from Corporate Sponsor Dow Chemical Company

Hello UM Engineering Students!

Dow Chemical is proud to be a sponsor of the corporate directory for the 2012 SWE/TBP Engineering Career Fair. University of Michigan students are "leaders and best" and every year we look forward to participating in Career Fair events on campus, offering young engineers new opportunities, and helping you make a difference.

Dow combines the power of science and technology to passionately innovate what is essential to human progress. The Company connects chemistry and innovation with the principles of sustainability to help address many of the world's most challenging problems such as the need for clean water, renewable energy generation and conservation, and increasing agricultural productivity. Dow's diversified industry-leading portfolio of specialty chemical, advanced materials, agrosiences and plastics businesses delivers a broad range of technology-based products and solutions to customers across the globe and in high growth sectors such as electronics, water, energy, coatings and agriculture. In 2011, Dow had annual sales of \$60 billion and employed approximately 52,000 people worldwide. The Company's more than 5,000 products are manufactured at 197 sites in 36 countries.

We believe the diversity our people bring to the workplace is our strength. We value differing experiences, backgrounds and perspectives and foster an inclusive workplace. We are looking for people who will take risks, explore new ideas, collaborate and lead courageously - people who want to make a difference!

Please visit us at Career Fair on Monday, September 24th and talk to our recruiters. We are recruiting for co-op, intern, and full-time positions for most engineering disciplines. We look forward to talking to you about the many exciting opportunities available within Dow. You can find more information about our industries and opportunities at Dow by visiting us on the web at www.Dow.com.

We look forward to seeing you!

Sincerely,

The Dow Chemical Company University of Michigan Recruiting Team

Career Fair 2013

Message from Corporate Sponsor Shell

University of Michigan Engineering Students:

Did you know that by 2050, global energy demand could double? To help us supply the world's energy needs, we require the best technical minds from across the globe. That is why Shell continually recruits from the University of Michigan, and it's why we are proud to sponsor the corporate directory for the 2012 SWE/TBP Engineering Career Fair.

We hope you find this directory helpful as you navigate through multiple career opportunities. We also hope that you will consider Shell when it comes time to make your employment or internship decisions.

Shell is a global group of energy and petrochemical companies, employing approximately 90,000 people and operating in more than 80 countries and territories. In the United States, Shell has operations in 50 states and employs about 20,000 people. Shell is a leading oil and gas producer in the deepwater Gulf of Mexico, a recognized pioneer in oil and gas exploration and production technology and one of America's leading oil and natural gas producers, gasoline and natural gas marketers and petrochemical manufacturers.

We're currently creating the world's first floating liquefied natural gas facility – Prelude FLNG. This is a revolution in natural gas production, and it will help unlock new energy resources. In June 2011, Pearl GTL, the world's largest gas-to-liquids plant, made its first shipment of GTL Gasoil. This GTL technology is helping to meet the world's growing demand for cleaner burning energy. But our advanced technologies are not the only reason to consider Shell.

Shell has recently been named a "Top 100 IDEAL Employer." One of the reasons for this recognition is our world-class graduate program. As a graduate at Shell, whatever department you work in, you can expect to make an impact on innovative projects that really matter, helping us find solutions to the biggest of challenges in the most unlikely of ways, all while being supported by coaches and mentors to help you succeed.

If you have the ability to think big and want to join a team of trusted and supportive colleagues, stop by the Shell booth at the career fair, or visit www.shell.us/careers.

Sincerely,
The Shell University of Michigan Recruiting Team

Message from Corporate Sponsor Workforce Software

Dear UM Engineering Students,

Do you want a job or do you want a career? If you prefer the latter, keep reading...

Founded by University of Michigan alumni, headquartered in Livonia MI, and with an Ann Arbor development office, WorkForce Software is one of the fastest growing software product companies in the booming human capital management space. Formed in 1999 with a keen focus on technical innovation, WorkForce Software has grown steadily – year-over-year – by every possible measure: revenues, customers, product portfolio, and employee base. Today our products are at work around the globe, in use by hundreds of thousands of employees on a daily basis, and play an integral role in the day-to-day operations of some of the world's biggest industries and brands, including most US nuclear power plants, Blizzard Entertainment, major universities, Liberty Mutual insurance, and hundreds more. 2011 was a record-breaking year for us and, at current course and speed, 2012 is on track to become even bigger.

But enough about us... let's talk about YOU...

You're passionate about technology. You want to be part of a strong development team that builds great products. You love being challenged and learning from top-notch peers. You understand the power and potential of Java, HTML5, the cloud, and mobile OS platforms. You understand that technology is a means to an end and that, in the right hands, technology can transform businesses and even change lives. But most of all, you know that you don't want to be just another cog in the wheel. You want to make a difference.

At WorkForce Software, we can offer you an opportunity to leave your mark on the company from day one. You'll come on-board, hit the ground running, and begin working on projects that will appear on desktops, smartphones, and tablets around the world.

If this sounds good – and you're up to the challenge – check us out online and learn more about who we are, what we do, and the customers we serve. If you like what you see, visit us on Monday, September 24th and meet with current members of the WorkForce Software team.

Best regards,

Ken Olson
VP, Software Development
